

# Reusable <sup>N95 & N99</sup> Respiratory Face Mask

Antibacterial Refill Filters

- **HIGH SAFETY** for best protection against **GERMS** & hazardous **HAZE Particles**
- **Easy Breathing & Best Comfort**  
Twin exhaust valves for prolonged wearing
- **Good Fit Design**  
Ergonomic face contour with soft silicone/rubber mask fitting

FDA approved plastic material  
BPA (EC) No. 1895/2005

FDA

**PREMIUM  
Model GP 620**

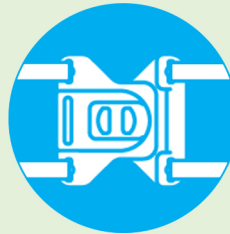

## FEATURES

Separation Between nose & mouth chamber design

Washable & Reusable

Magnetic buckle for easy wearing

User settable ON/OFF twin exhaust valves

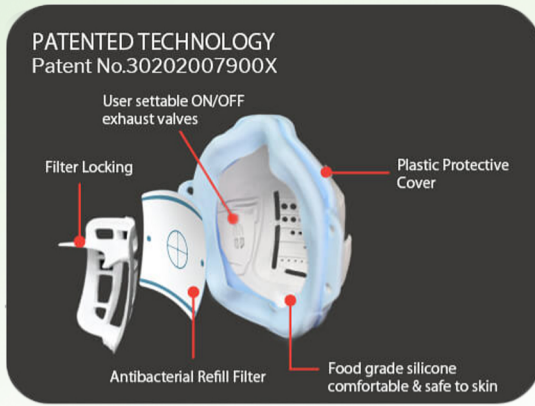

Food grade silicone comfortable & safe to skin

3-ply Refill Anti Bacterial Filters

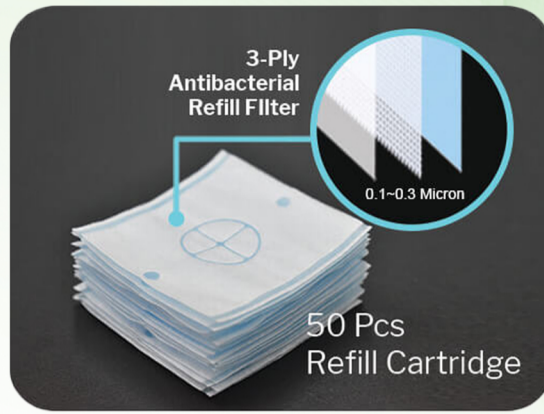

## Patented Face Mask Technologies

- REFILL Germ Filter technology
- Separating Nasal & Mouth Compartments Design

## Bacterial Filters

- 3 Ply fine layers of Melt blown & Spun bond Non-woven antibacterial filtering materials

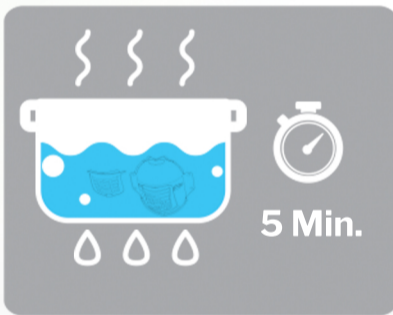

## Easy steps to sanitize eGee-Pro Reusable Mask

### Using soap/detergent sanitizing

Wash your mask in clean warm (around 30°C) soapy water, making sure you rinse all components thoroughly before allowing them to dry naturally.

### Hot water sanitizing

1. Heat the water to boil
2. Put the plastic reusable face mask in water for 5 - 10 minutes to sanitize

#### CAUTION:

Filter cartridges are NOT for reuse, remove the used filter and replace it with a new filter.

Not suitable for children use.

## Quality Compliance Standards

- Manufactured in Cleanroom facility certified to ISO Class 8 (100.000)
- Tested to comply with EN14683:2019 and ASTM F2100 Bacterial Filtration Efficiency (BFE)
- Tested to comply with Respiratory Filtering Standard EN149:2001-A1:2009
- Products are UV sterilize and packed

## Product Properties & Performance

Europe: EN14683 and USA: ASTM F2100 Standards	Bacterial Filtration Efficiency (BFE) @ 3.0 micron	≥ 99%
Europe Respiratory: EN149:2001-A1:2009 Standard	Particulate Filtration Efficiency (PFE) @ 0.3 micron	≥ 99%
